Assessment

Teacher

Assessment

Can you describe the changes that happen between two seasons?

The seasons are spring, summer, autumn and winter. The weather is different during each season. As the weather changes, plants change, too and animals change their behaviour to suit the weather. For example, In spring, the weather begins to get warmer and trees and other plants grow new leaves. Summer is the hottest season and has long, usually sunny, days. In autumn, the weather becomes mild and leaves start falling from many types of trees.

Can you describe something that happened in the past, something happening in the present and something you would like to happen in the future?

THE PAST:

THE PAST:

THE PAST:

THE PAST:

THE PAST:

THE PRESENT:

THE FUTURE:

THE FUTURE:

THE FUTURE:

Birth of grandparents

Birth of parents

When I was a baby

What I did last week

What I did earlier today

What I am doing right now

What I will do later today

What I will do next week

What I will do when I am a grown up
